

More than 2200 specialised chemical laboratory technicians, scientists, business people and many helping hands work at AGROLAB across Europe. Our laboratories serve society with independent analysis for healthy food, clean environment and sustainable agriculture. To ensure that AGROLAB continues to stand for high analytical quality and attentive service, we are looking for new employees with commitment, personal responsibility and a love for precision.

We want to expand our leading position and are looking for a

Teamleader sampling (m/f)

Full-time for approx. 40 hours / week | Zelzate

JOB DESCRIPTION

For our sampling team in Zelzate we are looking for a team leader sampling. As a team leader, you will arrive in a family organization with a flat hierarchy. A pleasant yet professional working atmosphere where quality and service is of paramount importance.

YOUR TASKS WILL BE

- Managing the team as well as planning the activities.
- Performing internal audits.
- Follow-up of quality administration.
- Follow-up stock consumables.
- Customer contacts for scheduling sample taking.
- Consultation with internal and external stakeholders.
- Thinking along about possible optimizations for the team and the samplings.
- Follow up on regulations for samplings and implement them.
- If necessary, be able to go on the road yourself for samples.

YOUR PROFIL

- Bachelor's or Master's degree with environmental, technical or chemical direction, or equivalent through experience.
- At least 2 years of experience within an environmental and/or analytical environment.
- Experience in managing a team.
- Knowledge of current software such as MS office.
- Driver's license B is required.
- Given the mobile nature of this function, appropriate physical fitness is necessary.
- As one of the faces of the organization, you are customer-friendly.
- Solution-oriented

JOB RELATED COMPETENCIES

- Demonstrable experience with the different types of sampling on different aqueous matrices.
- Be familiar with the applicable regulations for sample taking (WAC, CMA, CvGP), be able to apply them, present them to team members and be able to audit.
- Preparation and maintenance of technical documentation and procedures.
- Planning, both for yourself and for the team.

LEADERSHIP SKILLS

- Guiding the samplers through the daily activities.
- Being able to take charge as well as lead.

YOUR PLUS

- + Flat hierarchies
- + Fair treatment, transparent decisions
- + Strong cohesion
- + Continuing professional development
- + Promotion of personal development

AGROLAB AS AN EMPLOYER
