	A700	Organics (1.000 ml)			
	A702	Mibio (1.000 ml)			

In the AGROLAB **bottle set lists** you will find all the information about the bottles and the associated parameters. Please also take a look at our flyer "**AGROLAB bottle set and transport system**". There you will learn how to properly handle our transport system to ensure the safe and undamaged transport of your samples to our laboratory. All documents can be found on our website in the download area. Please only use our specified bottles to send samples to AGROLAB. This is the only way we can ensure the quality of sampling, sipatch and subsequent analysis. **Please do not paste over overwrite the barcode on the bottles.** The bottles remain the property of the AGROLAB GROUP.

Be completed by the laboratory
