Your labs. Your service.

Feed Concentrates Analysis

Reliable analytics for complex feed concentrate matrices.

High-quality feed concentrates require reliable analytical control. AGROLAB supports manufacturers and distributors with precise analyses for complex feed concentrate matrices. Our specialized feed laboratories are equipped with state-of-the-art analytical instruments and designed for high sample throughput and efficiency.

All laboratories are accredited according to DIN EN ISO/IEC 17025 and hold additional regional certificates and recognitions. Regular participation in proficiency testing and round robin tests ensures consistently high analytical quality.

As a manufacturer or distributor of feed concentrates, you must ensure not only the correct levels of valuable ingredients, but also the absence of contaminants and residues. In addition, compliance with legal requirements is essential. AGROLAB supports you with reliable analyses and expert consulting.

An excerpt from our scope of analysis

Valuable ingredients

- + Vitamins
- + Minerals and trace elements
- + Amino acids

Undesirable substances

- + Heavy metals
- + Dioxins, dl-PCB, ndl-PCB
